**DETAILED ACTION**

1. This communication is in response to applicants amendment received on 06/05/2009.
2. Applicant's arguments presented on pages 12 and 13 of the remarks with respect to the claims rejections under 35 USC § 103 have been fully considered and are persuasive. Therefore, the rejections have been withdrawn.

**Allowable Subject Matter**

1. Claims 1-4, 6-12, 14-21 and 23-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of the independent claims 1, 10 and 18 are the inclusion of the following limitations that are not found in the prior art and they are uniquely distinct features. The closest prior arts are Kanda et al (US 6,769,063 B1) and Stien et al (US 2003/0133568 A1). Kanda discloses a data transformation device that comprises a data diffusion part and a key scheduling part. In the data transformation device the data diffusion part comprises N round of cascade-connected round processing parts which sequentially perform round processing of left and right pieces of data after input data is split into left and right pieces. Stien discloses a programmable data encryption engine for performing the cipher function of an advanced encryption standard (AES) using the Rijndael algorithm.

However, these arts, singularly or in combination, fail to anticipate or render the following limitation:

"Claims 1 and 10: then dividing the summed signal into N first signals that are in parallel, where each first signal is n bits in length so that  $n * N = X$ ; and

    said diffuser comprising at least one shift register and at least one look-up table associated therewith."

"Claim 18: then dividing the summed signal into N first signals that are in parallel, where each first signal is n bits in length so that  $n * N = X$ ; and

    the diffuser comprising at least one shift register and at least one look-up table associated therewith."

3. The dependent claims 2-4, 6-9, 11, 12, 14-17, 19-21 and 23-26 are allowed because they were originally found to include a unique feature not found in the closest abovementioned art.

#### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
